
April 21 4 p.m.

Do the Math: film screening & discussion

Church of the Crossroads
1212 University Ave Honolulu, HI 96826

After Bill McKibben's influential article last year in Rolling Stone magazine about the potential for catastrophic climate change if we tap the remaining known reserves of the earth's fossil fuels, there was a nationwide campaign to raise awareness and inspire action. Now, 350.org has a 40-min film that will be shown simultaneously around the country on the evening of 21 April (Earth Sabbath), followed by a live streaming discussion.

Church of the Crossroads and **Central Union Church's Green Team** are hosting a showing and discussion in Weaver Hall, beginning at 4:00 PM. If you are able to join us, please bring your own coffee mug or reusable coffee cup.
